

US 60 Widening Project I-10 to Loop 101 (Price Freeway)

**Public Open House
Thursday, September 27, 2007**

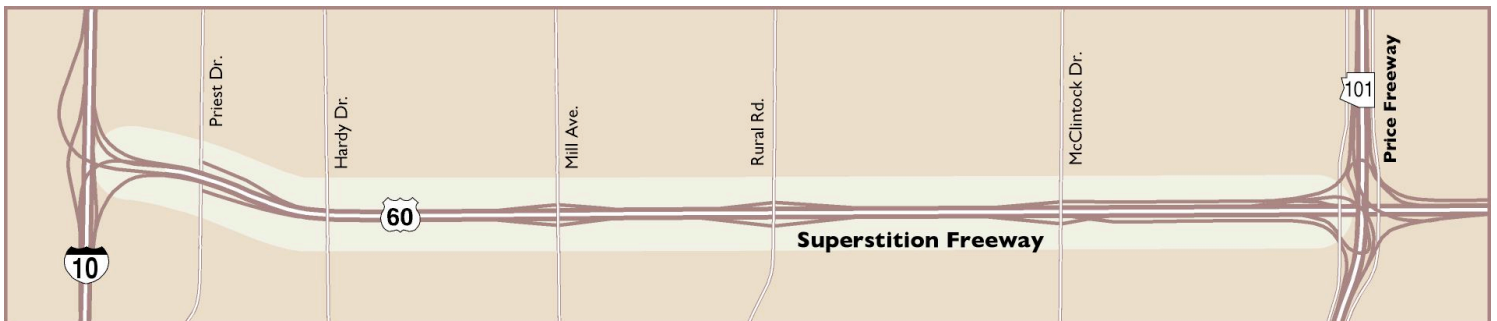

Federal Highway
Administration

This project will add one additional general purpose lane in each direction between Hardy and McClintock Drives. Merging lanes (auxiliary lanes) also will be added at select interchanges to assist with merging at on ramps and off ramps.

Anticipated Schedule

Design	fall 2007
Construction	summer 2008

- No new right-of-way will be required
- One new travel lane in each direction
- Noise walls to remain in existing locations
- Noise evaluation per ADOT Noise Abatement Policy to determine if modifications are needed
- Rubberized asphalt will be included with this project
- No crossroad bridge widenings
- All ramp connections will remain connected to US 60 in final configuration; temporary ramp closures will occur during construction
- Construction notices will be sent out to all residents and businesses within a one-half mile radius of the project limits
